FROM: TEAM 14 "John Malware"

SUBJECT: Inject 0

To the upper echelon (Big-John) of our crime syndicate "Muah-haha Evil Crime Cyber Guys".

Our team of professionals will be using the following codenames and certain "slang" in future messages as we suspect that other crime syndicates may have taped our communications:

Krish - DailyArch, our Linux manager
Alex   - WindowsGoat, our Windows manager
Adam   - MonkeyBoy, our CTF and KoTH manager
Kieran - YouOverThere, our Communication manager (Injects)
Nick - SillyMoose, our best Lackey Delegate

An example of future communication may be as follow:

Mr. Big-John, I was walking to the bank to get some "linux" from the "templeOS (wink)" and DailyArch was in the "vault" grabbing the "green".

Mission completed. We, team John Malware of Muah-haha Evil Crime Cyber Guys, have successfully delivered this message to Mr. Big-John.

Victory at all costs, 10-4.
